Sub: Submission of six monthly compliance report of Bikram Coal Mine (ML Area 239 Ha) for 0.36 MTPA coal productions by Opencast & Underground coal mining in Villages Bartara and Gopalpur, Tehsil Burhar, District Shahdol, Madhya Pradesh of Birla Corporation Limited for the period of Apr'22 to Sep'22.

Ref: EC identification No: EC22A042MP160150, File No. IA-J-11015/23/2020-IA-II(M), dated 20th May 2020.

Dear Sir,

With kind reference to above mentioned subject, kindly find attached herewith the six monthly compliance report for the conditions stipulated in the Environmental Clearance of Bikram Coal Mine (ML area 239 Ha) of 0.36MTPA by Opencast & Underground coal mining in Villages Bartara and Gopalpur, Tehsil Burhar, District Shahdol, Madhya Pradesh of Birla Corporation Limited for the period of Apr'22 to Sep'22. This is for your kind consideration please.

The mine is currently at virgin stage and no mining activities are being done at site and various statutory approvals are being taken to start the mining operations.

The copy of above compliance report is also being sent in soft and hard format for your kind perusal. Also, the copy of same is also being uploaded on MoEF&CC PARIVESH portal and the same can be accessed through company website also.

Hope the above are in line with the statutory requirements.

Thanking you,
Yours faithfully,
For Birla Corporation Limited

Bhupendra Singh Choudhary,
VP (Mine) & Authorized Signatory

Enclosed: EC compliance report of Bikram Coal Mine.

25th November, 2022

Six monthly Environmental Clearance Compliance of Bikram Coal Mine of Birla Corporation Limited

(Period: April 2022 – September 2022)

EC identification No: EC22A042MP160150, File No. IA-J-11015/23/2020-IA-II(M)
Date of Issue of EC: 20th May 2020

Environmental Clearance of Bikram Coal Mine	
EC identification No: EC22A042MP160150 File No. IA-J-11015/23/2020-IA-II(M) Date of Issue of EC: 20 th May 2020	
EC terms & conditions / Specific Conditions	Compliance status till 25th November 2022.
(i) PP to obtain the CTO for 0.36 MTPA capacity after grant of EC.	Noted. Being complied. The CTO shall be obtained before the mine operation shall receive the peak production.
(ii) Coal Transportation by Road route is permitted for 5 years and further transportation shall be conducted only through railways siding. PP to submit the action taken and proof of consultation with railway in this regard to IRO, MoEF&CC in six monthly reports.	Noted. Being complied. Site visit of railway sidings done for collection of primary information and consultation letter vide no BCL/Bikram/EC/ 29 (1 to 3) /22 submitted (Annexure-I).
(iii) PP shall focus on tree plantation along the area proposed by PP far from North to West to South direction near the dump 2 and before the habitation & in the east direction too for 100 mts with miyawaki technique. A detailed action plan with budgetary provision should be submitted within 6 months to IRO. Areal images in this regard should be submitted in six monthly reports to IRO as a proof.	Noted and being complied. Currently the land acquisition process is in-progress and after start of mine operation, plantation shall be done. However, plantation and sapling distribution is being done regularly. This year (2022-23) about 1000 saplings were distributed among surrounding villages.
(iv) 1.59 ha forest land can only be used to accommodate the overburden quantity. Out of 1.59 ha, 0.75 ha land come under revenue forest where not a single tree is present. Thus, only 0.84 ha of forest land may be considered	Noted and being complied.

Sapling distributions to villagers for plantation

Date of Issue of EC: 20th May 2020

EC terms & conditions / Specific Conditions	Compliance status till 25 th November 2022.
<p>to be disturbed. While reclamation the plantation to be carried out at 1.59 ha with proper maintenance before handling.</p>	
<p>(v) PP to undertake the recruitment of a full-fledged qualified manpower with Environmental Engineer / Env. Science degree background in Environment Management Cell etc at coal mining site for compliance of EC conditions.</p>	<p>Noted and complied. Qualified Environmental Engineer / Env. Science degree background in Environment Management Cell etc is being established. Recruitment of adequate manpower at Environment Management Cell shall be done once operation of mine started.</p>
<p>(vi) PP to fulfil all the commitment made to address the public hearing issued in time bound manner as committed vide letter BCL/EC/Bikram/08/22 dated 26.03.2022 and a progressive report to be furnished to IRO with every six monthly compliance report.</p>	<p>Noted and shall be complied. Although various public hearing commitment such as installation of solar lights, deepening of nearby water ponds, modernization of anganwadi centre with Smart TV and furniture etc provided at various villages in and around mine area.</p> <div style="text-align: center;">  <p><i>Modern anganwadi centres around mine site</i></p> </div> <div style="text-align: center;">  <p><i>Education support at mine site</i></p> </div>

File No. IA-J-11015/23/2020-IA-II(M)

Date of Issue of EC: 20th May 2020

EC terms & conditions / Specific Conditions	Compliance status till 25 th November 2022.
(vii) PP shall comply to its letter refer no BCL/EC/bikram/11/22 dated 26 th April, 2022 submitted for Sal nursery development by June 2022, Installation of Solar Power plant of 1 MWH in 5 years, Road side plantation in consultation with gram panchayat which should be initiated by June, 2022, development of haul road by March, 2023 instead of December 2023. PP to maintain the topped haul road properly to minimized the dust emission.	Noted and shall be complied. The sal nursery shall be developed in consultation with local forest department, a letter regarding the same is made (Annexure-IA). The Road side plantation in consultation with gram panchayat is being initiated by June 2022. A communication copy with gram panchayat is enclosed herewith as Annexure-IB.
(viii) PP to develop pucca roads connecting to State Highway by seeking consent from the panchayat with widening of roads especially roads inter linking the villages within the study area of 10 km radius buffer zone. A record of it to be submitted to the respective IRO in six monthly compliance reports. All along the road tree plantation of about 20-30 mts shall be maintained.	Noted and shall be complied once start of mining operations. However, the mine has consulted the local panchayat and application of widening of roads is made at Collector, Shahdol office with their approval (Annexure-).
(ix) PP to furnish the record (audited) of actual budgetary expenditure for EMP in respect of capital cost of Rs. 22.83 crores & recurring cost of Rs.7.49 Crore per year.	Noted and shall be complied
(x) PP to monitor the water quality of the ground water and surface water body located within the core zone and 5km radius from the periphery of the mine boundary as per procedure laid down by CPCB.	Noted and shall be complied after starting of mining operations. Currently the mine is at virgin sate and no mining activities are started at site.
(xi) PP to install 1 more continuous ambient air quality monitoring stations at suitable locations preferably village side with consultation of SPCB. The real time data so generated shall be uploaded on company website and linked it with website of CPCB & SPCB. In addition, data should also be displayed digitally at entry and exit gate of mine lease area for public display.	Noted and shall be complied after starting of mining operations. Procurement of CAAQMS is initiated and after installed and commissioning real time data shall be uploaded and displayed at site after start of mine operations.
(xii) PP shall develop 2 water harvesting pond near the village of suitable area as suggested by EAC in consultation with Gram Panchayat within 1 year.	Noted and shall be complied.
(xiii) PP shall deploy atleast 5 number of fog cannons with 40 mts throw for mitigation of fugitive dust during mining operations within six months.	Noted and shall be complied.

File No. IA-J-11015/23/2020-IA-II(M)

Date of Issue of EC: 20th May 2020

EC terms & conditions / Specific Conditions	Compliance status till 25 th November 2022.
<p>(xiv) PP to plant additional 100,000 plants with three tier plantation along the haul roads, if not completed, and identified areas with consent to the gram panchayat within one year and plant for remaining within 1 year for their proper growth.</p>	<p>Noted and being complied.</p> <p>Currently the mine is virgin in nature and no mining opening are being started. The plantation made in and around mine area is being done every year. In year 2020-21, 2021-22, and 2022-23 about 500, 500 and 100 saplings were planted and distributed among villagers.</p>
<p>(xv) PP to install solar lights along the road used for transportation of minerals to avoid the accidents at night and also seek its maintenance. PP is asked to also identified the rural areas for installation of solar light with its maintenance within the study area of 10 km radius buffer zone within one year.</p>	<p>Noted and shall be complied.</p> <p>Solar street lights of 30 watts were installed at five surrounding villages in three phases at Gopalpur, Bartara, Saraikapa, Karkati, Chituhala of mine lease area. Which shall save around 20 units of electricity per day.</p> <div style="text-align: center;">  </div> <p style="text-align: center;"><i>Solar street lights installed at mine site</i></p>
<p>(xvi) Proponent shall appoint an Occupational Health Specialist for Regular and Periodical medical examination of the workers engaged in the Project and maintain records accordingly; also, occupational health check-ups for workers having some ailments like BP, diabetes, habitual smoking, etc. shall be undertaken once in six months and necessary remedial/preventive measure taken accordingly. The Recommendations of National Institute for ensuring good occupational environment for mine workers shall be implemented. The preventive measure for burns, malaria and provisions of anti –snake venom including all other paramedical safeguards may be ensured before initiating the mining activities.</p>	<p>Noted and shall be complied.</p>
<p>(xvii) Persons of nearby villages shall be given training on livelihood and skill development to make employable with its proper records.</p>	<p>Noted and shall be complied.</p> <p>Training on livelihood and skill development to make employable is a continuous activity under various CSR programmes.</p>

	 <p data-bbox="831 607 1495 645"><i>Farmers skill development programme at site</i></p>
<p>(xviii) The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PP must ensure that the biological clock of the village is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day light / night hours.</p>	<p>Noted and shall be complied.</p>
<p>(xix) PP shall pay to farmers of agricultural land if there is any loss due to pollution found by concerned District Commissioner as per extent rules or norms.</p>	<p>Noted and shall be complied.</p>
<p>(xx) PP should establish in house (at project site) environment laboratory for measurement of environment parameter with respect to air quality and water (surface and ground) A dedicated team to oversee environment management shall be setup which should comprise of Environment Engineers, Laboratory chemist and staff for monitoring of air, water quality parameters on routine basis. Any non-compliance or infringement should be reported to the concerned authority.</p>	<p>Noted and shall be done after starting of mining operations.</p>
<p>(xxi) Hon'ble Supreme Court in a Writ Petition(s) Civil no 114/2014y, Common Cause Vs Union of India & Ors vide its judgement dated 8th January, 2020 has directed the Union of India to impose a condition in the mining lease and similar condition in the environmental clearance and the mining plan to the effect</p>	<p>Noted and shall be complied.</p>

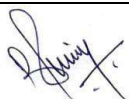

Environmental Clearance of Bikram Coal Mine

EC identification No: EC22A042MP160150

File No. IA-J-11015/23/2020-IA-II(M)

Date of Issue of EC: 20th May 2020

EC terms & conditions / Specific Conditions	Compliance status till 25 th November 2022.
that the mining lease holders shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to their mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc. Compliance of this condition after the mining activity is over at the cost of the mining lease holders/ Project Proponent. The implementation report of the above said condition shall be sent to the Regional Office of the MoEF&CC.	
Standard EC Compliances	
a) Statutory Compliance	
1) The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986 in case of the diversion of forest land for non-forest purpose involved in the project.	Noted and shall be complied. The Bikram Coal Mine has already obtained Forest Clearance Stage-1 approval letter no 8-34/2021-FC, dated 21 st April 2022, compliance of same is being done. Although, final forest clearance (Stage-II) is awaited.
2) The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.	Not applicable
3) The project proponent shall prepare a site – specific Conservation Plan/ Wildlife Management Plan and approved by the Chief Wildlife Warden. The recommendations of the approved site-specific Conservation Plan / Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report (in case of the presence of Schedule-I species in the study area).	Noted and shall be complied. The site conservation plan and wildlife map has been approved by forest department and shall be implemented. However, mine is yet to receive stage-II forest clearance. The mine is currently at virgin state and no mining operations are being done till date at site.
4) The project proponent shall obtain Consent to Establish / Operate under the provisions of the Air (Prevention & Control of Pollution), Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board / Committee.	Noted and complied. The mine has received Consent to Establish (CTE) vide no 56415, dated 29.07.2022 valid till 30.06.2027.
5) The project proponent shall obtain the necessary permission from the Central Ground Water Authority.	Noted and complied. The permission from CGWA has been obtained vide no CGWA/ NOC/MIN/ORIG/ 2021/12093, valid up to 16.06 2023.

File No. IA-J-11015/23/2020-IA-II(M)

Date of Issue of EC: 20th May 2020

EC terms & conditions / Specific Conditions	Compliance status till 25th November 2022.
6) Solid / hazardous waste generated in the mines needs to be addressed in accordance to the Solid Waste Management Rules, 2016 / Hazardous & Other Waste Management Rules, 2016.	Noted and shall be complied.
7) The Environmental clearance shall be subject to orders of Hon'ble Supreme Court of India, Hon'ble High Courts, NGT and any other Court of Law, from time to time, and as applicable to the project.	Noted and shall be complied.
b) Air quality monitoring & preservation	
(i) Continuous ambient air quality monitoring stations as prescribed in the statute be established in the core zone as well as in the buffer zone for monitoring of pollutants, namely PM10, PM2.5, SO2 and NOx. Location of the stations shall be decided based on the metrological data, topographical features and environmentally and ecologically sensitive targets in consultation with the State Pollution Control Board. Online ambient air quality monitoring stations may also be installed in addition to the regular monitoring stations as per the requirements and /or in consultation with the SPCB. Monitoring of heavy metals such as He, As, Ni, Cd, Cr etc. to be carried out at least once in six months.	Noted and shall be complied after starting of mining operations. Currently the mine is at virgin state and no mining activities are started.
(ii) The Ambient Air Quality monitoring in the core zone shall be carried out to ensure the Coal Industry Standards notified vide GSR 742 € dated 25 th September, 200 and as amended from time to time by the Central Pollution Board. Data on ambient air quality and heavy metals such as Hg, As, Ni, Cd and other monitoring data shall be regularly reported to the Ministry/ Regional Office and to the CPCB/SPCB.	Noted and shall be complied after starting of mining operations.
(iii) Transportation of coal, to the extent permitted by road, shall be carried out by the covered trucks / conveyors. Effective control measures such as regular water /mist sprinkling / rain gum etc. shall be carried out in critical areas prone to air pollution (with higher values of PM10/PM2.5) such as haul road, loading /unloading and transfer points. Fugitive dust emission from all sources shall	Noted and shall be complied.

be controlled regularly. It shall be ensured that the Ambient Air Quality parameters conform to the norms prescribed by the Central / State Pollution Control Board.	
(iv) The transportation of coal shall be carried out as per the provisions and route envisaged in the approved Mining Plan or environment monitoring plan. Transportation of coal through the existing road passing through any village shall be avoided. In case, it is proposed to construct a 'bypass' road, it should be so constructed so that the image of sound, dust and accidents could be appropriately mitigated.	Noted and shall be after starting of mining operations. The environmental monitoring shall be done after starting of mining operations.
(v) Vehicular emission shall be kept under control and regularly monitored. All the vehicles engaged in mining and allied shall operate only after obtaining "PUC" certificate from the authorized pollution testing centres.	Noted and shall be after starting of mining operations.
(vi) Coal stock pile/crusher/feeder and breaker material transfer points shall invariably be provided with dust suppression system. Belt-conveyors shall be fully covered to avoid air borne dust. Side cladding all along the conveyor gantry should be made to avoid air borne dust. Drills shall be wet operated or fitted with dust extractors.	Noted and shall be complied.
(vii) Coal handling plant shall be operated with effective control measures w.r.t. various environmental parameters. Environmental friendly sustainable technology should be implemented for mitigating such parameters.	Noted and shall be complied.
(viii) Major approach roads shall be black topped and properly maintained.	Noted and shall be complied.
c) Water Quality Monitoring and Preservation	
(i) The effluent discharge (mine waste water, workshop effluent) shall be monitored in terms of the parameters notified under the Water Act, 1974 Coal Industry Standards vide GSR 742 (E) dated 25 th September, 2000 and as amended from time to time by the Central Pollution Control Board.	Noted and shall be complied after starting of mining operations.
(ii) The monitoring data shall be uploaded on the company's website and displayed at the project site at a suitable location. The circular No. J-20012/1/2006-IA.II(M), dated 27 th May	Noted and shall be complied after starting of mining operations. The EC copy has been uploaded in company's website in following link. Also, EC document

Environmental Clearance of Bikram Coal Mine

EC identification No: EC22A042MP160150

File No. IA-J-11015/23/2020-IA-II(M)

EC terms & conditions / Specific Conditions	Compliance status till 25 th November 2022.
2009, issued by Ministry of Environment, Forest and Climate Change shall also be referred in this regard for its compliance.	has been submitted & displayed to all local panchayats, Govt office along with project site office of Bikram Coal Mine. https://www.birlacorporation.com/investors/satna/Environmental-Clearance-of-Bikram-Coal-Mine.pdf
(iii) Regular monitoring of ground water level and quality shall be carried out in and around the mine lease area by establishing a network of existing wells and constructing new piezometer during the mining operations. The monitoring of ground water levels shall be carried out four times a year i.e., pre-monsoon, monsoon, post-monsoon and winter. The ground water quality shall be monitored once a year, and the data thus collected shall be sent regularly to MoEF&CC/RO.	Noted and shall be complied after starting of mining operations.
(iv) Monitoring of water quality upstream and downstream of water bodies shall be carried out once in six months and record of monitoring data shall be maintained and submitted to the Ministry of Environment, Forest and Climate Change / Regional Office.	Noted and shall be complied after starting of mining operations.
(v) Ground water, excluding mine water, shall not be used for mining operations, Rainwater harvesting shall be implemented for conservation and augmentation of ground water resources.	Noted and shall be complied. The water augmentation by deepening four surrounding water ponds is done in year 2022 at mine site.  <p><i>Water augmentation by silt removal at site</i></p>  <p><i>Excavated pond after rain in village area</i></p>

Date of Issue of EC: 20th May 2020

EC terms & conditions / Specific Conditions	Compliance status till 25th November 2022.
<p>(vi) Catch and /or garland drains and siltation ponds in adequate numbers and appropriate size shall be constructed around the mine working, coal heaps & OB dumps to prevent run off of water and flow of sediments directly into the river and water over dumps shall be avoided by providing adequate channels for flow of silt into the drains. The drains / ponds so constructed shall be regularly de-silted particularly before onset of monsoon and maintained properly. Sump capacity should provide adequate retention period to allow proper settling of silt material. The water so collected in the sump shall be utilised for dusts suppression and green belt development and other industrial use. Dimension of the retaining wall constructed, if any, at the toe of the OB dumps within the mine to check run-off and siltation should be based on the rainfall data. The plantation of native species to be made between toe of the dump and adjacent field / habitation/ water bodies.</p>	<p>Noted and shall be complied.</p>
<p>(vii) Adequate groundwater recharge measures shall be taken up for augmentation of ground water. The project authorities shall meet water requirement of nearby village(s) after due treatment conforming to the specific requirements (standards).</p>	<p>Noted and shall be complied.</p>
<p>(viii) Industrial waste water generated from CHP, workshop and other waste water, shall be properly collected and treated so as to conform to the standards prescribed under the Water Act 1974 and Environment (Protection) Act, 1986 and the Rules made there under, and as amended from time to time. Adequate ETP/STP needs to be provided.</p>	<p>Noted and shall be complied</p>
<p>(ix) The water pumped out from the mine, after siltation, shall be utilized for industrial purpose viz., watering the mine area, roads, green belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly.</p>	<p>Noted and shall be complied.</p>
<p>(x) The surface drainage plan including surface water conservation plan for the area of influence affected by the said mining operations, considering the presence of river/ rivulet/pond/lake etc., shall be prepared and</p>	<p>Noted and shall be complied.</p>

Environmental Clearance of Bikram Coal Mine

EC identification No: EC22A042MP160150

File No. IA-J-11015/23/2020-IA-II(M)

<p>implemented by the project proponent. The surface drainage plan and /or any diversion of natural water courses shall be as per the approved Mining Plan / EIA/EMP report and with due approval of the concerned State / Gol Authority. The construction of embankment to prevent any danger against inrush of surface water into the mine should be as per the approved Mining Plan and as per the permission of DGMS or any other authority as prescribed by the law.</p>	
<p>(xi) The project proponent shall take all precautionary measures to ensure riverine/ riparian ecosystem in and around the coal mine up to a distance of 5km. A riverine/riparian ecosystem conservation and management plan should be prepared and implemented in consultation with the irrigation / water resources department in the state government.</p>	Noted and shall be complied.
<p>(xii) The project proponent shall not alter major water channels around the site. Appropriate embankment shall be provided along the side of the river/ nallah flowing near or adjacent to the mine. The embankment constructed along the river / nallah boundary shall be of suitable dimensions and critical patches shall be strengthened by stone pitching on the river front side, stabilized with plantation so as to withstand the peak water pressure preventing any chance of mine inundation.</p>	Noted and shall be complied.
<p>(xiii) Garland drains (of suitable size, gradient and length) around the critical areas i.e. mine shaft and low laying areas, shall be designed keeping at least 50% safety margin over and above the peak sudden rainfall and maximum discharge in the area adjoining the mine sites. The sump capacity shall also provide adequate retention period to allow proper settling of silt material of the surface runoff.</p>	Noted and shall be complied.
<p>(xiv) The water pumped out from the mine, after siltation, shall be utilized for industrial purpose viz., watering the mine area, roads, green belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly.</p>	Noted and shall be complied

Environmental Clearance of Bikram Coal Mine

EC identification No: EC22A042MP160150

File No. IA-J-11015/23/2020-IA-II(M)

Date of Issue of EC: 20th May 2020**EC terms & conditions / Specific Conditions****Compliance status till 25th November 2022.****d) Noise and Vibration monitoring and Prevention**

(i) Adequate measure shall be taken for control of noise levels as per noise pollution rules, 2016 in the work environment. Workers engaged in blasting and drilling operations, operation of HEMM, etc shall be provided with personal protective equipment's (PPE) like ear plugs/muffs in conformity with the prescribed norms and guidelines in this regard. Adequate awareness programme for users to be conducted. Progress in usage of such accessories to be monitored.	Noted and shall be complied after starting of mining operations.
(ii) Controlled blasting techniques shall be practices in order to mitigate ground vibrations, fly rocks, noise and air blast etc., as per the guidelines prescribed by the DGMS.	Noted and shall be complied
(iii) The noise level survey shall be carried out as per the prescribed guidelines to assess noise exposure of the workmen at vulnerable points in the mine premises, and report in this regard shall be submitted to the Ministry / RO on six-monthly basis.	Noted and shall be complied

e) Mining Plan

(i) Mining shall be carried out under strict adherence to provisions of the Mines Act 1952 and subordinate legislations made there-under as applicable.	Noted and shall be complied. The mining shall be done as per approved from MoC, GoI. The mine plan of Bikram coal mine valid as one date.
(ii) Mining shall be carried out as per the approved mining plan (including Mine Closure Plan) abiding by mining laws related to coal mining and the relevant circulars issued by Directorate General Mines Safety (DGMS).	Noted and shall be complied
(iii) No mining activity shall be carried out in forest land without obtaining Forestry Clearance as per Forest (Conservation) Act, 1980 and also adhering to the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 read with provisions of the Indian Forest Act, 1927.	Noted and shall be complied. The Mine has obtained Forest Clearance Stage-1 approval vide no 8-34/2021-FC, dated 21 st April 2022 issued by MoEF&CC as per Forest (Conservation) Act, 1980 and compliance of same is being done.
(iv) Underground work place environmental conditions shall be rendered ergonomic and air breathable with adequate illumination in conformance with DGMS standards.	Noted and shall be complied.

(v) No change in mining method i.e. UG to OC, calendar programme and scope of work shall be made without obtaining prior approval of the Ministry of Environment, Forest and Climate Change (MoEF&CC).	Noted and shall be complied.
(vi) Efforts should be made to reduce energy and fuel consumption by conservation, efficiency improvements and use of renewable energy.	Noted and shall be complied.
f) Land Reclamation	
(i) Digital survey of entire lease hold area / core zone using Satellite Remote Sensing survey shall be carried out at least once in three years for monitoring land use pattern and report in 1:50,000 scale or as notified by Ministry of Environment, Forest and Climate Change (MoEF&CC) from time to time shall be submitted to MoEF&CC / Regional Office (RO).	Noted and shall be complied after starting of mining operations.
(ii) The final mine void depth should preferably be as per the approved Mine Closure Plan, and in case it exceeds 40m, adequate engineering interventions shall be provided for sentence of aquatic life therein. The remaining area shall be backfilled and covered with thick and alive top soil. Post-mining land be rendered usable for agricultural / forestry purposes and shall be diverted. Further action will be treated as specific in the guidelines for Preparation of Mine Closure Plan issued by the Ministry of Coal dated 27 th August, 2009 and subsequent amendments.	Noted and shall be complied.
(iii) The entire excavated area, backfilled, external OB dumping (including top soil) and afforestation plan shall be in conformity with the "during mining" / "post mining" land use pattern, which is an integrated part of the approved Mining Plan and the EIA/EMP submitted to this Ministry. Progressive compliance status vis-à-vis the post mining land use pattern shall be submitted to the MoEF&CC /RO.	Noted and shall be complied.
(iv) Fly ash shall be used for external dump of overburden, backfilling or stowing of mine as per provisions contained in clause (i) and (ii) of subparagraph (8) of fly ash notification issued vide SO 2804 (E) dated 3 rd November,	Noted and shall be complied.

2009 as amended from time to time. Efforts shall be made to utilize gypsum generated from Flue Gas Desulfurization (FGD), if any, along with fly ash for external dump of overburden, backfilling of mines. Compliance report shall be submitted to Regional Office of MoEF&CC, CPCB and SPCB.	
(v) Further, it may be ensured that as per the time schedule specified in mine closure plan it should be remain live till the point of utilization. The topsoil shall temporarily be stored at earmarked site(s) only and shall not be kept unutilized. The top soil shall be used for land reclamation and plantation purpose. Active OB dumps shall be stabilised with native grass species to prevent erosion and surface run off. The other overburden dumps shall be vegetated with native flora species. The excavated area shall be backfilled and afforested in line with the approved mine Closure Plan. Monitoring and management of rehabilitated areas shall continue until the vegetation becomes self-sustaining. Compliance status shall be submitted to the Ministry of Environment, Forest and Climate Change / Regional Office.	Noted and shall be complied after starting of mining operations.
(vi) The project proponent shall make necessary alternative arrangements, if grazing land is involved in core zone, in consultation with the State government to provide alternate areas for livestock grazing, if any. In this context, the project proponent shall implement the directions of Hon'ble Supreme Court with regard to acquiring grazing land.	Noted and shall be complied.
(vii) Post-mining land be rendered usable for agricultural / forestry purpose and shall be handed over to the respective State Government, as specified in the Guidelines for Preparations of Mine Closure Plan, issued by the Ministry of Coal dated 27 th August, 2009 and subsequent amendments.	Noted and shall be complied.
(viii) Regular monitoring of subsidence movements on the surface over and around the working areas and its impact on natural drainage pattern, water bodies, vegetation, structure, roads and surroundings shall be continued till movement ceases completely. In	Noted and shall be complied after starting of mining operations.

plan in this regard, if any, shall be prepared and implemented in consultation with the State Forest and Wildlife Department.	
(ii) Greenbelt consisting of 3-tier plantation of width not less than 7.5 m shall be developed all along the mine lease area as soon as possible. The green belt comprising a mix of native species (endemic species should be given priority) shall be developed all along the major approach / coal transportation roads.	Noted and shall be complied.
h) Public hearing and Human health issues	
(i) Adequate illumination shall be ensured in all mine locations (as per DGMS standards) and monitored weekly. The report on the same shall be submitted to this ministry & its RO on six- monthly basis.	Noted and shall be complied after starting of mining operations.
(ii) The project proponent shall undertake occupational health survey for initial and periodical medical examination of the personnel engaged in the project and maintain records accordingly as per the provisions of the Mines Rules, 1955 and DGMS circulars. Besides regular periodic health check-up, 20% of the personnel identified from workforce engaged in active mining operations shall be subjected to health check-up for occupational diseases and hearing impairment, if any, as amended time to time.	Noted and shall be complied.
(iii) Personnel (including outsourced employees) working in core zone shall wear protective respiratory devices and shall also be provided with adequate training and information on safety and health aspects.	Noted and shall be complied.
(iv) Implementation of the action plan on the issues raised during the public hearing shall be ensured. The project proponent shall undertake all the tasks./ measures as per the action plan submitted with budgetary provisions during the public hearing. Land oustees shall be compensated as the norms laid down in the R&R policy of the company/ Sate Government/ Central Government, as applicable.	Noted and being complied. Various public hearing commitment such as Health camps, Education support by development of modern anganwadi centers, water conservation and augmentation by pond deepening and silt removal, solar street lights installation etc is been done at site from last few years and the same is as per action plan of public hearing commitments. In year 2021-22 about 26.82 Lakhs were spend and in this year 2022-23 about 30 lakhs budgetary approval is been taken and shall be spent under various CSR programmes.

Sub: Request for providing railway siding for transportation of Coal produced - Compliance EC condition no (6) of EC letter no IA-J-11015/23/2020-IA-II(M), dated 20th May 2022 of Bikram Coal Mine of Birla Corporation Limited Regarding

Dear Sir,

With above mentioned subject, Bikram Coal Mine has received Environmental Clearance vide EC Identification no EC22A042MP160150, file no IA-J-11015/23/2020-IA-II(M), dated 20th May 2022 for coal production from its 239 Ha coal mine of 0.30 MTPA capacity.

Bikram coal mine project is a green field project and currently statutory approvals are being taken by mine.

In view of EC compliance, the Bikram needs to send its coal produced by railways in a timeframe of 5 yrs. Bikram shall produce about 1000 to 1200 tons of coal per day and shall send to its end use plants at Rajasthan once in every week. Thus we urge to provide the current status of your siding and future expansion plan (if any) along with application for its use.

Thanking you,
Yours Sincerely,
For Birla Corporation Limited

प्रति,

माननीय, प्रभारी,
अनुसंधान एवं विस्तार रोपणी (वन परिक्षेत्र रीवा),
धनपुरी, जिला शाहडोल, मध्य प्रदेश.

विषय:- मेसर्स बिरला कॉर्पोरेशन लिमिटेड की विक्रम कोयला खदान, ग्राम गोपालपुर एवं बरतरा, तहसील - बुढ़ार, जिला शाहडोल, के लिए साल नर्सरी डेवलपमेंट एवं साल के पौधों का निर्माण एवं सप्लाई के सम्बन्ध में।

महोदय,

उपरोक्त संदर्भित पत्रानुसार मेसर्स बिरला कॉर्पोरेशन लिमिटेड की विक्रम कोयला खदान, खदान क्षेत्र -239 हेक्टर, ग्राम गोपालपुर एवं बरतरा, तहसील- बुढ़ार, जिला - शाहडोल, मध्य प्रदेश को 0.36 मिलियन टन/वर्ष के कोयला उत्पादन, ओपन कास्ट एवं भूमिगत कोयला उत्खनन विधि के लिए भारत सरकार पर्यावरण वन एवं जलवायु परिवर्तन मंत्रालय नई दिल्ली (MoEF&CC) द्वारा पर्यावरणीय स्वीकृति, पर्यावरणीय शर्तों एवं सुरक्षात्मक उपायों के साथ दी गई है एवं अन्य स्वीकृतियाँ (Approvals / clearances) क्षेत्र में खदान खोलने के लिए भारत एवं प्रदेश सरकार द्वारा प्रदान की गई है।

जैसे कि आप जानते हैं, ग्राम गोपालपुर एवं बरतरा क्षेत्र में साल वृक्ष एक लोकल प्रजाति है। जो प्रचुर मात्रा में पाए जाते हैं, और जिसकी क्षेत्र में संख्या बढ़ाने के लिए कंपनी द्वारा नर्सरी डेवलपमेंट का प्रस्ताव है। साल वृक्षों का पुनर्निर्माण एवं उसकी नर्सरी डेवलपमेंट के लिए हमें (विक्रम कोयला खदान) आपके सहयोग एवं तकनीकी सहायता की आवश्यकता है। कंपनी (विक्रम कोयला खदान) अपनी रोपटी जोन में साल वृक्षों का प्लांटेशन एवं ग्रीन बेल्ट डेवलपमेंट में प्रयोग करना चाहती है, जिसके तहत हमें साल के करीब 5 फीट ऊंचे एवं 2 साल से बड़े 5000 पेड़ों की आवश्यकता होगी।

वन विभाग के निर्देशानुसार, हमें यह पता चला है कि, आपके अनुसंधान एवं विस्तार रोपणी केंद्र, धनपुरी में, साल वृक्षों का पुनर्निर्माण एवं प्लांटेशन उपयुक्त साल वृक्षों की साप्लिंग्स (Saplings) / छोटे पौधे नर्सरी द्वारा बनाए एवं बेचे जाते हैं।

अतः आपसे अनुरोध है कि विक्रम कोयला खदान में साल पौधों के प्लांटेशन एवं ग्रीन बेल्ट डेवलपमेंट हेतु साल के छोटे पौधों को कंपनी के लिए आरक्षित रख, ताकि उचित समय अनुसार हम प्लांटेशन कर सकें, एवं क्षेत्र में साल वृक्षों की संख्या बढ़ाने के लिए मदद कर सकें।

अतः आपसे अनुरोध है की प्लांटेशन हेतु आप साल एवं अन्य फलदार एवं औषधीय लोकल प्रजाति के पौधों की दर प्रदान कराने का कह करे जिसका भुगतान कंपनी नियमानुसार कर सके।

धन्यवाद।
